PRACTICAL 4: PATCH PANEL INSTALLATION

Objective

Install and document a patch panel.

BEFORE:

DURING:

AFTER:

BEFORE:

DURING:

AFTER:

A patch panel is an essential part of a network that connects, organizes and manages network cables. It serves as a central hub where all cables are neatly labeled and arranged which prevents messy tangles of CAT5 cables in a local area network. Patch panels make cable management easier, improves troubleshooting and provides clear documentation and traceability for all connected devices.

Activities

1. Mount patch panel.
2. Terminate network runs.
3. Label ports.
4. Create port schedule.
5. Test all ports.

Deliverable

Completed patch panel installation.

Assessment Rubric (10 Marks) Criteria	Marks
Correct patch panel termination	4
Port numbering	2
Documentation	2
Testing verification	2
Total	10
